Baby Driver Jan Kerouac 1998 Just as Jack Kerouac captured the beat of the '50s, his daughter captured the rhythm of the generation that followed. With a graceful, often disturbing detachment and a spellbinding gift for descriptive imagery, Jan Kerouac explores the tortured, freewheeling soul of a woman on her own road. From an adolescence of LSD, detention homes, probation, pregnancy, and a stillbirth in the Mexican tropics at age 15; to the peace movement in Haight-Ashbury and Washington state; to traveling by bus through Central America with a madman for a lover, Baby Driver moves with the force of a tropical storm.

John A. Logan, Stalwart Republican from Illinois James Pickett Jones 1982 "James P. Jones ... uses newspaper accounts, private letters, and the records of Congress to examine Major General John A. Logan's return to his political and legislative career after the Civil War. Logan emerged from the national conflict a military hero and uncommitted to any political party ... By 1884 his personality and fiercely defended principles had earned him the vice-presidential nomination on the ill-fated Republican ticket. Many writers on this period have portrayed Logan as a corrupt politician, but Jones successfully clears the Illinoisan's record"--Jacket.

Snapping and Wrapping: Personal Photography in Japan Richard Chalfen 2021-06-08 'Snapping and Wrapping' represents an original study in Japanese visual culture, pictorial communication, and photographic studies. Vernacular visual culture is highlighted, stressing ordinary people and everyday life to explore photographic expressions of Japanese family life. The theme of "how people looked" is described from two closely related perspectives: how people appeared in their own photographs, and how people looked at specific features of their own lives with analog camera technology. The book includes unexamined material based on a qualitative study involving personal fieldwork undertaken between 1993 and 2009. The metaphor of "wrapping culture" (Hendry) is suggested for ways of interpreting relationships of personal family photographs in conjunction with acknowledged cultural influences and values of Japanese culture. Across an introduction and six chapters, the book covers a series of research topics evoked by efforts to recover, repair, and return millions of photographs to survivors following the 2011 Great East Japan Earthquake. Memory, privacy and kinds of information control are reviewed as parts of strategies of sharing pictures, "presence" and the use of photographs for interpersonal interaction and communication. Throughout the monograph, emphasis is placed on understanding details of analog personal photography for potential comparisons to the intensely popular digitalization of photographic recordings and, in turn, facilitate making informed speculations for future photographic practice. This book will be of interest to upper-level students, graduate students and scholars in the fields of media and culture, Asian Studies (especially Japanese visual culture), as well as those working on sensitive relationships of family, memory and representation.

In My Studio Mary Panzer 1986 Rudolf Eickemeyer, Jr. began his work as a photographer in 1884, for his father's engineering firm. His interest piqued, he rapidly advanced to portraiture and landscape photography. Eickemeyer spent twenty years as a commercial success in his role as fashionable Fifth Avenue portraitist. Working with Eastman Kodak, he demystified photography, attracting thousands of amateurs. Eickemeyer excelled at both artistic photography and professional photography, as this exhibition attests. A lifelong resident of Yonkers, New York, Eickemeyer played a key role in the creation of the Yonkers Museum of Science and Art, the institutional forerunner of the Hudson River Museum, an entirely appropriate venue for this comprehensive exhibition and catalog.

Lyn e Lewis Gaillet 2019-05-23 Before the full and honest tale of humanity can be told, it will be necessary to uncover the hidden roles of women in it and recover their voices from the forces that have diminished their contributions or even at times deliberately eclipsed them. The past half-century has seen women rise to claim their equal portion of recognition, and Remembering Women Differently addresses not only some of those neglected—it examines why they were deliberately erased from history. The contributors in this collection study the contributions of fourteen nearly forgotten women from around the globe working in fields that range from art to philosophy, from teaching to social welfare, from science to the military, and how and why those individuals became either marginalized or discounted in a mostly patriarchal world. These sterling contributors, scholars from a variety of disciplines—rhetoricians, historians, compositionists, and literary critics—employ feminist research methods in examining women's work, rhetorical agency, and the construction of female reputation. By recovering these voices and remembering the women whose contributions have made our civilization better and more whole, this work seeks to ensure that women's voices are never silenced again.
